

CMS Tutorial – How to login and access your CMS

1. To access your content management system (CMS) you must login. To do this, you must go to the web address that Webcessity have provided.
2. If you do not have this address, all you have to do is add /_admin to the end of your web address. For example, for the domain www.yourdomain.com the login screen would be found at www.yourdomain.com/_admin
3. Login to the backend of your website by entering your username and password on the screen like the one below:

The image shows the Webcessity CMS login interface. At the top, there is a logo for 'webcessity' with 'CONTENT MANAGEMENT SYSTEM' underneath, and a blue speech bubble containing 'CMS'. Below the logo is a login form with the heading 'Welcome, Please Sign in.' The form contains two input fields: 'Username *' and 'Password *'. Below the password field is a checkbox labeled 'Remember Me' and a blue button labeled 'LOGIN'.

4. Click the 'Login' button

You're done!
